Subject: Re: Calibrated 'Powerblock' for Aixam

Tristan,

I have found the complete set for the Aixam 500.5 Diesel with engine pulley number 0500-0004.

You haven't the right driven pulley and not the right belt too !

For this application, the gear-box pulley is normally 5600-0038 and the belt **D3211AA1096** (width = 34mm)
